

## **Fiber Extravaganza**

**May 17, 18, & 19, 2019**

**Boone County Fairgrounds Lebanon, IN**

**Go to [www.hlaa.us](http://www.hlaa.us) for full list on information**

The HLAA is proud to announce the Fiber Extravaganza, a fiber and camelid health event! Suitable for all experience levels, this event covers a wide array of topics in the industry. Ranging from fiber arts classes to veterinary seminars taught by one of the top camelid veterinarians in the U.S.A., we strive to provide classes that will interest everyone! In addition to these classes, there will be both shorn and walking fleece competitions, a fiber animal sale area, vendors and much more!

To Start with you will need to buy the amount of fun you would like to have. The full weekend for \$200 each or \$300 for adult and teenage. This covers the meet and great dinner on Friday night, Coffee and donuts Saturday and Sunday, Gifts from vendors, Saturday 2 three-hour class sessions, Argentine Llama lunch talk, Time to shop, Catered in sit down dinner with keynote speaker, Sunday 2-3hour class Session and more shopping. Also don't forget the fiber sale and fiber animal sale at the event too.

Now maybe you can't do the full weekend, that's fine you can pay for one day. Saturday is \$125, pays for 2-3hour class session, Coffee and Donuts, Argentine Llama lunch talk, time to shop, Catered sit-down dinner with keynote speaker. Now if Sunday is better the cost is \$100. That gets you coffee and donut, 2-3hour classes sessions, and shopping time. But what if you just want to come to the HLAA meeting and eat dinner with us? You can buy Dinner tickets for \$30 each.

Many of the class sessions have material fees with them, these are fees that will get you all you need to learn and make the fiber craft being taught. Now the veterinarian class fee is to pay for the hands-on part of the class. This means you could bring llamas and/or alpacas that

can be worked on and other too learned from. There will be some llamas and alpacas on hand to work with but this is a low-cost way to have the top vet look and work on your animal. If you would like to bring one you will need to tell me about your animal and what you want the vet to work on, so I can share this with the vet, so put this information on the back of the entry form and make sure you put down a history of the animal. (age, sex, what you want looking at, breeding, and more)

Don't forget while you are at the Extravaganza that you can enter a fiber show. There are classes for llamas and alpacas, Shorn, Walking, and finished projects. There is great handmade Trophies for this show.

But what if you are looking for your next llama, alpaca, Wool Goat, Sheep, or Rabbit this is the places to come we are having a fiber animal sale over the weekend, or what if you are looking to sale a fiber animal you can do both here, or what about raw fiber? Got some sitting around you can sale it here, or come and buy what you need for your upcoming projects.

I bet after all this you are wondering what the Saturday dinner is? We are serving baked Steak, Lemon pepper artichoke Chicken, Red bud parsley potatoes, Green Beans, Dinner Rolls with butter, Fruit entrée, Tossed Salad With dressing, Dessert, Ice Tea and Lemonade. WOW That sounds great!!

I can't wait to see you all hear at this great event!

Thank you

Deb Yeagle
